HUSH IT UP

Government doctor told gran: 'You must think of the economy'

DEADLY ILLNESS STRIKES BRAIN

# The threat of a new dengue enthusiasm breaks out among young people has been delayed.
# The human population of New York's Entebbe is on the run from the dengue outbreak.
# Within five months, 2.54 million people will have to flee their homes and take to the streets.
# Scientists are finding a link between CD and dengue virus - how can we learn to live with it?
# A CDC senior spokesman revealed that between 2000 and 2004, 2.554 people were examined.
